WHAT IS IEEE WIE?

In the IEEE, WIE stands for Women in Engineering. It's a global network and affinity group dedicated to promoting female engineers and scientists, inspiring girls to pursue careers in STEM, and providing a supportive community for women within IEEE.

The IEEE WIE Student Branch Affinity Group at the University of Sri Jayewardenepura provides undergraduates opportunities to grow while fostering an inclusive community of students, promoting equality, leadership, and innovation, inspiring students to embrace diversity and contribute to technological advancements for the betterment of humanity.

WHAT IS ARTEMIA?

Innovate,Compete and Create Technology for Women's Safety

ARTEMIA 2.0
LET'S EMPOWER HER SAFETY

Artemia 2.0 is a tech innovation competition driving solutions for women's safety. From personal security to community support, it empowers participants to create impactful, scalable technologies that promote equity and protect women across all communities.

THE STORY BEHIND ARTEMIA

From Artemis to Artemia: Fearless.Strong.Empowered

Artemia draws inspiration from Goddess Artemis, the fearless protector of women and girls, known for her bow, arrows, and unwavering courage.

Her moon symbolizes the serenity and safety we strive for, her bow and arrows indicate precision, focus, and creative invention, and her presence in the wild represents bravery and determination.

This makes ‘Artemia’ the perfect name for a competition dedicated to designing technologies that protect, empower, and uplift women ever y where.

MOONLIT MILESTONES OF ARTEMIA

Phase 01: Ideathon

A competition to select the best Videos and proposals.

Phase 02: Designathon

Translating ideas into front-end designs and working prototypes, demonstrated via a proof-of-concept video.

Phase 03: Final

Teams pitch and demonstrate their complete solutions live.

ARTEMIA IN MOTION

Registration
20th Octomber - 26th October

Session 01
29th October

Session 02
1st November

Ideathon Proposal Submission
2nd November - 6th November

Session 03
11 th November

Ideathon Winners Announcement with a session
14th November

Designathon Submission
15th November- 19th November

Session 05
22 nd November

Designathon Winners Announcement with a session
26th December

Final
5th December

PHASE 01 : IDEATHON

Ideathon WinnersSelectionCriteria

Winners of the Ideathon round will be selected by a judge panel based on the following criteria:

- Problem Understanding – Identifying a real women's safety issue.
- Clarity of Idea – Solution is clear and well-explained.
- Innovation – Brings fresh thinking or improvements.
- Practicality – Realistic with current resources.
- User Empathy – Addresses women's real needs.
- Impact Potential – Can create measurable change.

PHASE 02 : DESIGNATHON

Designathon's Winners selection

Winners of the Ideathon round will be selected by the resource person based on the following criteria:

- Visual Clarity – Clean and easy to navigate.
- User Flow – Smooth and logical journey.
- Accessibility – Inclusive of diverse needs.
- Consistency – Professional and uniform design.
- Interactivity – Realistic user simulation.
- User Empathy – Approachable and user-friendly.

PHASE 03 : THE FINAL

Final Winners selection

Winners will be judged on:

- Functional Completeness – A fully built, working web or mobile application.
- Technical Execution – Solid architecture, clean code and smooth performance.
- UI/UX & Accessibility – Intuitive, user-friendly and inclusive interface design.
- Idea Impact – Relevant, innovative, and addresses real women's safety & empowerment needs.
- Live Demo & Pitch – Seamless live product demonstration, storytelling and Q&A handling.
- Feasibility & Scalability – Practical real-world usability and long-term potential.
- Teamwork – Effective collaboration and technical problem-solving.

RULES AND REGULATIONS

- A team should have 3 members.
- All team members must be from the same University or Higher Educational Institute.
- Each team must include at least one female member.
- Judges' decisions are final.

GUIDELINES

- Submissions must be the original work of the participant/team.
- Plagiarism or use of uncredited third-party materials will result in disqualification.
- Submissions for each stage must be made before the specified deadlines.

AWARD FOR WINNERS

WHY ARTEMIA STANDS OUT?

Artemia goes beyond a typical competition; it's a journey of impact and innovation.

By combining ideathons, designathons, expert-led workshops, and mentorship, it empowers you to transform bold ideas into technology-driven solutions that advance women's safety, equality and well-being.

Every challenge you tackle contributes to multiple Sustainable Development Goals, turning your creativity, collaboration and determination into real-world change that shapes safer, more inclusive communities and inspires lasting societal progress.

EMPOWERMENT MEETS SUSTAINABILITY

YOU DON’T JUST COMPETE,YOU CONTRIBUTE TO GLOBAL CHANGE

In Artemia, you become a changemaker.

By channeling your creativity and skills, you create innovative solutions that advance women's safety, promote equality, and make a tangible impact toward the United Nations Sustainable Development Goals.

EMPOWERMENT MEETS SUSTAINABILITY

Gender Equality

Artemia empowers undergraduates to design innovative solutions that tackle women's safety and equity challenges.

By amplifying women's voices and promoting inclusivity, the competition drives progress toward a future of equal opportunities and lasting empowerment.

EMPOWERMENT MEETS SUSTAINABILITY

Industry, Innovation and Infrastructure

Through its focus on technology and creativity, Artemia inspires participants to build scalable, impactful solutions.

By fostering innovation and resilience, the competition supports progress in industries and infrastructures that address real societal needs.

EMPOWERMENT MEETS SUSTAINABILITY

Sustainable Cities and Communities

Artemia contributes to safer, more inclusive cities and communities by encouraging ideas that enhance women's well-being and protection.

The competition emphasizes technology as a tool to create environments where everyone can thrive.
